#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 19 March 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☒ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Drawings***

1. The drawings are objected to because in Figure 11, block 130, the third frame is indicated as both entering Stage 1 and entering Stage 3. While the general description of block 132 indicates the spline is applied to the stiles of the third frame, the spline has not yet been applied to the rails of the third frame, and if the operation is continuous this should have occurred. This operation appears to be occurring to the first frame rather than the third frame. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Specification***

2. The disclosure is objected to because of the following informalities: The specification in paragraph [0070] indicates the spline is applied to the stiles in the third stage, which contains the first frame rather than the third frame as indicated in Figure 11 and paragraph [0057]. The specification should be amended to insure the appropriate operations are occurring at the appropriate stages.

Appropriate correction is required.

***Allowable Subject Matter***

3. Claims 13-21 are allowed.

4. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest a method of installing frames into screens wherein a frame has two opposing first frame members, a screen is secured to a first frame member in a first stage, the frame is moved to a second stage and simultaneously the first screen is secured to the opposing first frame member and a second screen is secured to the first frame member of a second frame in the first stage. The opposing frame members are considered to be opposite one another. While Johnson et al.(U.S. Patent 2,695,445) discloses joining the screen to a pair of opposing first frame members in a first stage and a pair of opposing frame members in a second stage(Figure 4), the reference does not disclose joining the screen to the opposing first frame members in two different stages.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

5. This application is in condition for allowance except for the following formal matters: the problems with the drawings and specification outlined above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Barbara J. Musser whose telephone number is (571) 272-1222. The examiner can normally be reached on Monday-Thursday; alternate Fridays.
